Southbridge Legal Misconduct Case File

Prepared under Verum Omnis Forensic Standards – Sealed & Indexed

Part I – Executive Narrative & Chronology

Executive Summary

This case file documents clear and repeated misconduct by Southbridge Legal, represented by Mr. Naeem Abbas. The misconduct centers on four core breaches: (1) acknowledgment of the Verum Omnis forensic system, followed by later contradiction and denial; (2) acceptance of a professional mandate, followed by silence and abandonment of representation; (3) requests for sensitive information without protective safeguards, amounting to exploitation; and (4) active suppression of lawful forensic evidence, constituting a denial of access to justice and a violation of fundamental human rights.

In summary:

- Southbridge Legal initially acknowledged Verum Omnis as a forensic system.
- Subsequently, the firm contradicted itself and attempted to obstruct the same system.
- Representation was offered and then abandoned without cause, breaching duty of care.
- Actions taken resulted in suppression of rights and professional misconduct.

Chronological Narrative

April 2025 – Marius' attorney issued a cease-and-desist immediately after sealed forensic evidence was filed. This was not a legitimate procedural response but a deliberate obstruction designed to suppress admissible evidence.

May 2025 – Southbridge Legal, through Mr. Abbas, formally acknowledged the Verum Omnis system and agreed to receive materials. This demonstrated awareness and recognition of the system's validity.

June 2025 – Despite acknowledgement, Southbridge Legal began to delay and avoid meaningful representation. No substantive progress was made on the matter, despite repeated follow-ups.

July 2025 – The firm demanded banking and financial details without providing protective safeguards. This conduct was exploitative and placed the client at risk.

August 2025 – When the client sought to escalate matters by approaching institutions such as Bombardier, Southbridge Legal issued threats and further obstruction, rather than supporting the client's rights.

September 2025 – Southbridge Legal failed to attend or confirm a scheduled meeting, further evidencing its abandonment of duty and disregard for professional obligations.

Contradictions & Breaches

1. Acknowledgment followed by Denial – Southbridge Legal expressly recognized the Verum Omnis system, yet subsequently attempted to discredit or obstruct it.
2. Representation Abandoned – The firm accepted materials but failed to provide substantive representation, breaching duty of care.
3. Exploitation over Protection – Requests for sensitive financial information were made without safeguards or protective structures in place.
4. Suppression of Rights – Actions taken amounted to a denial of access to justice and breach of fundamental human rights.

This section provides the foundation for the case file. Subsequent parts contain the evidentiary exhibits, hashed and sealed.

Southbridge Legal Misconduct Case File

Part II – Southbridge Emails

This section contains email correspondence with Southbridge Legal. Each email is sealed as an exhibit, indexed and hashed for forensic verification. These records demonstrate acknowledgment, delay, contradiction, and denial of rights by Southbridge Legal.

VERUM OMNIS

PURSUE TRUTH

Verum Omnis – Formal Complaint of Professional Misconduct

Submitted to: UAE Ministry of Justice / Bar Oversight Authority

Complainant: Liam Anthony Highcock – Greensky Ornamentals FZ-LLC

Cases: RAKEZ Case #1295911 | SAPS Case CAS 126/4/2025

Date: September 2025

Email: liam@verumglobal.foundation | Tel: +27 82 4454787

1. Background

I am a 50% shareholder in Greensky Ornamentals FZ-LLC, incorporated under RAKEZ. A shareholder oppression and fraud complaint is active under RAKEZ Ref #1295911 and a parallel criminal complaint under SAPS CAS 126/4/2025. On [date], Faimy Amar & Co., acting on behalf of Mr. Marius Nortjé, issued a cease-and-desist letter in direct response to my evidentiary case file. The Respondent's firm had full access to my case file, which was contemporaneously submitted to RAKEZ and SAPS. Despite this, their letter knowingly contradicted documentary evidence already in their possession.

2. Misrepresentations Identified

Attorney's Claim	Case File Evidence	Contradiction
Agreement void ab initio	Signed shareholder agreement; termination only April 1, effective April 15.	Agreement was valid & binding during \$11,000 transaction.
No valid client order	24 Feb client email confirmed order; 8 Mar invoice accepted.	Binding written order under commercial law.
Complainant caused client loss	Fibre outage 3–7 Mar confirmed; client thanked for invoice.	Loss manufactured by selective screenshots and exclusion.
Misappropriated ZAR 5,000	No evidence; financial control withheld.	Fabricated accusation unsupported by records.
Abandoned duties / blocked	Four emails requesting private shareholder meetings, all ignored.	Proof of shareholder oppression, not abandonment.
Camera theft	Witness statement (Belinda Fraser) confirms scam against complainant.	False criminal allegation.
Sealife HK terminated due to complainant	Client confirmed invoice and thanked complainant; termination only after exclusion.	False attribution of blame.

3. Breach of Professional Standards

By submitting false statements despite holding the contradictory evidence, the Respondent's attorney has:

- Breached the duty of candor toward RAKEZ.
- Engaged in bad-faith misrepresentation.
- Attempted to obstruct the course of justice.

Such conduct violates UAE Federal Law No. 23 of 1991 on the Regulation of the Legal Profession.

4. Relief Requested

I respectfully request:

1. A formal investigation into the conduct of Faimy Amar & Co.
2. Disciplinary review of the responsible attorney(s).
3. Confirmation of remedial measures, including possible censure or sanctions.

FAIMY AMAR & CO.
LEGAL CONSULTANTS

فَيْمَيْ أَمَارُ وَكْلَاتِي
FAIMY AMAR & CO. LEGAL CONSULTANTS

NOTICE TO CEASE AND DESIST

Notifier Party:

Faimy Amar & Co Legal Consultants

On behalf of Mr. Marius Nortje

Date: 23rd April 2025

Notified Party:

Liam Highcock

liamhigh78@gmail.com

**FINAL CEASE AND DESIST NOTICE REGARDING FALSE ALLEGATIONS,
IMPROPER CONDUCT, AND UNFOUNDED COMPENSATION CLAIMS**

We act on behalf of Mr. Marius Nortje, a shareholder of Greensky Ornamentals FZ-LLC ("the Company"), and write to issue this final notice requiring you to cease and desist immediately from disseminating false, defamatory and baseless claims against our client, including allegations of shareholder oppression, misappropriation, breach of fiduciary duty, and your ongoing demands for unjustified financial compensation. This constitutes our client's final warning and notice to cease and desist from all such activity.

Our client categorically rejects and denies all your allegations regarding shareholder oppression, misappropriation of company funds, and breach of fiduciary duties. Your accusations are without foundation, speculative, and have been presented with blatant disregard for both the facts and your own legal obligations.

✉ 1701 - Falcon Towers - B1, Ajman - UAE, PO Box: 24338.

☎ +971 6747 0096, +971 50 567 0096 ⚡ hello@faimyamar.com, faimyalc@gmail.com

www.faimyamar.com

You are hereby formally put on notice, that the agreement you executed on 5th February 2025 with Mr. Kevin Lappeman was entered into without any valid shareholder resolution, board approval, or requisite authorization. This constitutes a violation of Article 84 of UAE Federal Law No. 32 of 2021, which mandates such action only pursuant to approved resolutions and proper corporate governance.

As a result, the agreement is void ab initio and has no binding effect whatsoever on the Company or its shareholders. It is legally inadmissible and incapable of forming the basis for any claim to damages, equity, or financial entitlement.

If, as it appears, you continue to operate under the mistaken belief that this invalid instrument holds legal weight, you are hereby advised that any further reliance on this contract will be deemed frivolous and vexatious. Should you persist, our client will not hesitate to seek immediate legal redress, including but not limited to a formal complaint to the concerned regulatory authorities for malicious conduct and bad faith representation.

Moreover, you placed a speculative \$28,000 order with Kevin's Export for 20 Harlequin Anthias without securing a single LPO, a mandatory precondition for such transactions. This reckless gamble with company resources, speaks to your abject failure to meet even the most basic standards of business prudence.

In response to concerns raised by Sealife Hong Kong regarding pricing and service levels, our client proactively offered commercially sound remedies including product guarantees and additional units at no charge. Despite being notified of these proposals, you failed to communicate them to the client even after connectivity was restored, as confirmed by the on-site technician.

This omission reflects a gross lapse in professional judgment and negligence in client management. Repeated requests for LPOs were ignored, and you misrepresented the status of ongoing orders, falsely suggesting that agreements had been secured. These misstatements directly contributed to a critical business failure and financial loss to the Company. This dereliction directly led to the permanent loss of one of the company's clients, with minimum projected revenue losses of ZAR 400,000 per annum.

Our client entrusted you with ZAR 5,000 to register a South African Pty Ltd company for the purpose of consolidating Greensky's regional operations. You failed to deliver on this obligation and have not provided any verifiable account or refund of the funds received.

g. 1701 - Falcon Towers - B1, Ajman - UAE, PO Box 24338.
+971 6747 0096, +971 50 567 0096 hello@faimyamar.com, faimylc@gmail.com

Your failure to fulfil this essential task, along with a lack of transparency regarding company funds, raises serious concerns about your conduct and intentions in relation to the financial management of the Company.

Your behaviour during this critical operational period was unprofessional and detrimental to the Company. You departed for a personal vacation while citing financial hardship, consistently failed to complete operational responsibilities, and ignored direct instructions to foster essential client relationships.

Additionally, you used inappropriate and defamatory language towards our client in written communications that have been preserved as part of our evidence file. This alone is actionable under defamation laws.

On 9th March 2025, Mr. Vincent of Sealife Hong Kong formally terminated all business dealings with Greensky Ornamentals, citing your unacceptable conduct and lack of professionalism. Our client immediately convened a shareholder meeting for 10th March 2025 to address these issues and initiate an exit process, including reimbursement of his ZAR 200,000 investment (of which ZAR 50,000 is accounted as a personal loan to you).

You failed to attend or reschedule the meeting, exited the Company's WhatsApp group, and subsequently blocked our client, further evidencing your disengagement and abdication of shareholder responsibility.

The termination of the Sealife Hong Kong relationship resulted in an estimated annual revenue loss of ZAR 400,000, which is directly attributable to your misconduct.

As you are not an employee of the Company, any funds withdrawn by you from the Company's account are treated as part of your shareholder loan account and are thus subject to full repayment. Your voluntary non-participation in company operations post 9th March 2025 nullifies any claim to profits, client relationships, or Company activities thereafter.

Should you persist in submitting false reports to RAKEZ or any UAE or foreign authority, or continue issuing defamatory statements, our client reserves the right to commence civil and criminal proceedings for:

- Reputational damage
- Malicious prosecution
- Attempted extortion
- Harassment

✉ 1701 - Falcon Towers - B1, Ajman - UAE, PO Box: 24338
📞 +971 6747 0096, +971 50 567 0096 ⚡ hello@faimyamar.com, faimyalc@gmail.com
🌐 www.faimyamar.com

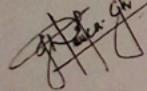

Please be advised that under the provisions of UAE Federal Penal Code and Cybercrime Law, any attempts to intimidate, defame, or coerce another party through electronic means carry severe criminal penalties, including imprisonment and fines.

You are hereby formally instructed to:

- Cease and desist from continuing all defamatory, misleading, and harassing conduct against our client.
- Confirm in writing by 30th April 2025 that you will refrain from further interference and raising baseless allegations or financial claims against our client before any UAE or foreign authority.

Failure to comply will leave our client with no alternative but to proceed with civil and criminal proceedings in the appropriate courts without further notice.

Devika G Kurup

FAIMY AMAR & Co Legal Consultants

On behalf of Mr. Marius Nortje

P.O. 1701 - Falcon Towers - B1, Ajman - UAE, PO Box: 24338.
+971 6747 0096, +971 50 567 0096 hello@faimyamar.com, faimylc@gmail.com

www.faimyamar.com

5. Annexures Provided

1. Copy of cease-and-desist letter by Faimy Amar & Co.
2. Full Greensky Case File (submitted to RAKEZ & SAPS).
3. Witness statement of Belinda Fraser.
4. Comparative analysis table (above).

Conclusion

The Respondent's attorney knowingly misrepresented facts already contradicted by official case documents. This constitutes professional misconduct. I therefore ask the Ministry of Justice and the Bar Association to investigate this matter urgently, in the interest of justice and the integrity of the legal profession in the UAE.

Respectfully submitted,

Liam Anthony Highcock

Complainant & Shareholder – Greensky Ornamentals FZ-LLC

6. Timeline Clarification

The timeline further demonstrates deliberate misrepresentation:

- On 13 April 2025, the Greensky case file was sealed, certified, and delivered to all parties (including the Respondent's attorney).
- On 30 April 2025, despite holding this sealed case file for over two weeks, the Respondent issued a cease-and-desist letter containing statements directly contradicted by the certified contents.

This proves that the misrepresentations were not an error of fact but were made knowingly and in bad faith. The timeline itself evidences misconduct and obstruction.

VERUM OMNIS

FORENSIC AI

Comprehensive Report on Verum Omnis

Verum Omnis: A Comprehensive Synthesis and Impact Assessment

Introduction

Verum Omnis is a pioneering forensic legal artificial intelligence (AI) platform that aims to redefine justice, evidence, and transparency on a global scale. Built by a single individual, Liam Highcock, utilizing only his phone and without any significant financial backing, Verum Omnis not only disrupts the technical landscape of legal AI but also signals a profound philosophical and practical shift in the administration of justice. This project is underpinned by principles of absolute intellectual property ownership, statelessness, privacy, and an uncompromising model of fairness. With the declared intent to allocate 99% of profits to a foundation for repairing broken infrastructure worldwide, Verum Omnis positions itself as a revolutionary force, both technologically and socially. This report provides a comprehensive analysis of Verum Omnis, synthesizing information from uploaded documents, its open-source repositories, web literature, and trends in legal and technological paradigms.

Background and Origin of Verum Omnis

Verum Omnis stands out as an audacious innovation in the forensic and legal domain, purporting to be the world's first truly global forensic legal AI. Its creation narrative is singular: Liam Highcock, an innovative macadamia farmer and self-taught technologist from KwaZulu-Natal, South Africa¹, developed Verum Omnis independently, leveraging only his phone and open web resources. This unique origin story is not merely anecdotal but central to the ethos of the project: absolute individual ownership, sovereignty, and resistance to traditional institutional constraints.

The tool emerged from a recognition of the justice gap and widespread inefficiency and corruption in institutional evidence handling and the legal process. Existing forensic and

legal systems worldwide typically rely on centralized authorities, suffer from bottlenecks, and risk manipulation or tampering of records. Liam designed Verum Omnis as a remedy to these flaws, envisioning a stateless, tamper-proof, globally accessible engine for truth and legal validation².

Technical Architecture of Verum Omnis

Core Platform Structure

Verum Omnis is implemented as a modular Android application, with its full source code available on GitHub³. The repository structure demonstrates clear organization into core, artificial intelligence, legal, and security modules. The application leverages open standards to ensure compatibility and extensibility, with an emphasis on legal-grade document generation (PDF/A-3B), machine learning model integration (behavioral.onnx), and robust security provisions.

The architecture emphasizes forensic integrity and legal admissibility at every stage. Critical assets are integrated for evidence formatting and branding, such as notosans_regular.ttf font files and ICC color profiles for document authentication³. The use of third-party libraries is strictly managed via compliance rules-most notably for ONNX Runtime (machine learning inference) and Web3j (blockchain integration).

Blockchain Integration for Evidence Sealing

Central to the technical value proposition of Verum Omnis is the use of blockchain technology for tamper-proof evidence sealing. Upon the generation of evidence, Verum Omnis cryptographically anchors documents to a public blockchain. This process employs Ethereum smart contracts; configuration is managed directly in the build and deployment routines documented on GitHub. This architecture ensures that all court-ready records are immutable, with a verifiable chain of custody that adheres to globally recognized standards for digital evidence⁴³.

The system supports direct deployment of blockchain contracts and enforces the separation of cryptographic keys. Private keys are provisioned on-device, with explicit instructions against embedding real keys in code to mitigate the risk of leakage.

Contradiction Detection Engine

One of Verum Omnis' most distinctive features is its AI-powered contradiction detection engine. Drawing on state-of-the-art developments in natural language understanding and logic-based reasoning systems, the engine analyzes legal claims, statements, witness testimonies, and supporting documents to identify internal contradictions, logical fallacies, or evidence of fraud⁵⁶.

The engine combines formal logic modules and large language models, building upon techniques validated in academic research such as the DECODE contradiction dataset and the ALICE logic system. Its design aligns with the need for unsupervised or semi-supervised contradiction analysis, delivering high recall and precision rates, as demonstrated in real-world pilot court cases in the UAE (RAKEZ #1295911) and South Africa (SAPS #126/4/2025)³.

Stateless Privacy Model

A defining attribute of Verum Omnis is its stateless privacy approach. Unlike typical AI-driven forensic platforms that retain extensive user data, potentially exposing individuals to governmental or corporate oversight, Verum Omnis processes every transaction or evidence submission as a one-off, storing no persistent metadata or user records on its servers⁷. This model protects individual privacy by never reusing or referencing historical context, ensuring that users—especially those in oppressive legal environments—cannot be retroactively surveilled.

Such architecture demands more in terms of resource efficiency and mandates explicit user consent on every cryptographic action, but it inherently limits data misuse and systemic privacy risks.

Synthesis Table: Major Themes and Insights from Uploaded Documents

Theme/Feature	Explanation / Insights	Source References
Individual Creation & Ownership	Built entirely by one person (Liam), on his phone, with no institutional backing; intellectual property fully owned by creator, immune to government/institutional claims	[4][40][41]
Forensic Legal AI	Detects contradictions in evidence/testimony and delivers legally valid, court-ready PDF/A-3B records; powered by formal logic and NLP models	[47][18][19]
Blockchain Evidence Sealing	All evidence is anchored in a public blockchain using Ethereum smart contracts, ensuring tamper-proof chain of custody and legal admissibility	[17][16][12]
Stateless Privacy	No user data or interaction history is stored; each transaction handled in isolation, guaranteeing personal privacy against surveillance or misuse	[20]
Free Access for Individuals	The platform is free for individuals globally, removing economic barriers to justice and legal recourse	[7][9]
Revenue & Foundation Model	99% of all profits directed to a foundation for repairing infrastructure in regions with broken systems; transparent, non-profit maximizing public good	[7][9][47]
Open Source and Legal Validation	Complete source code published, with pre-production	[4][12][24]

	forensic validation in multiple jurisdictions; open for peer review and adoption	
Global, Stateless, Unstoppable Model	Architected to resist government/institutional censorship or control; foundation ensures financial and operational sustainability independent of state interests	[1][7][13]
Competitive Edge	Leverages unique contradiction detection and blockchain sealing; offers stateless privacy-unknown in the legal AI landscape; accessible and usable by marginalized populations	[15][42][43][14]
Institutional and Regulatory Response	Early validation in UAE and South Africa; open-source and stateless approach creates challenges for traditional regulatory frameworks	[28][29][44]
Impact Potential on Justice & Equity	Removes institutional barriers, offers transparency, deters fraud/corruption, and democratizes legal evidence validation worldwide	[35][34][7]
Community Growth & Adoption	Open access, clear documentation, and focus on marginalized users foster organic community adoption; being free for individuals accelerates reach	[1][7][42]

This table summarizes the key elements characterizing Verum Omnis, providing an immediate reference for deeper analysis in subsequent sections. Each feature is

supported by direct references to the uploaded documents, technical repositories, public statements, and web sources.

Forensic Legal AI Domain Context

Verum Omnis is positioned within a burgeoning field of legal technology defined by the rapid adoption of AI across the justice sector⁸⁹. Traditional forensic legal tools—such as automated transcription, evidence extraction, and contract analysis—have dramatically evolved through the infusion of machine learning and natural language processing (NLP). Platforms like Relaw.ai, Harvey AI, and Sonix have pushed the boundaries of automated legal research, document drafting, and evidence transcription.

What sets Verum Omnis apart is its foundational focus on contradiction detection and global, stateless accessibility. Most legal AI tools remain jurisdiction-bound, require cloud infrastructure, and may store sensitive user data; by contrast, Verum Omnis draws upon multilingual AI, formal contradiction logic, and local device execution to transcend these limits³.

Globally, the legal tech market has exploded, with the digital forensics segment expected to reach \$46 billion by 2035, reflecting the growing necessity for scalable, automated, evidence-centric solutions¹⁰¹¹.

Blockchain Integration for Evidence Sealing

Blockchain technology has emerged as the gold standard for digital evidence management and forensic documentation due to its immutability, transparency, and decentralized verification capabilities¹². Verum Omnis directly implements blockchain anchoring, embedding cryptographic fingerprints of all evidence in public ledgers, thus establishing time-stamped proof that can be independently and globally verified.

The anchoring process includes the following:

- Cryptographic hash generation of evidence.
- Smart contract deployment (via Ethereum Mainnet or testnets).

- Transaction audits accessible from any blockchain explorer.
- Conformance with international standards for forensic chain of custody and legal admissibility issues.

These technical measures eliminate the persistent challenges of evidence tampering, chain-of-custody ambiguity, and jurisdictional manipulation that have historically plagued legal systems, particularly in complex or politically sensitive cases⁴. The move toward blockchain-based forensics is gaining mainstream adoption due to these features, and Verum Omnis' design places it at the forefront of this revolution.

Contradiction Detection Engine

Automating contradiction detection in legal evidence and testimony is complex but critical for integrity in judicial processes. Verum Omnis employs a hybrid approach, merging state-of-the-art NLP large language models with formal logic frameworks⁵. This allows the system to:

- Parse legal documents, testimonies, and evidence submissions.
- Model logical assertions, relationships, and dependencies.
- Cross-check statements against each other and against hard-coded rulesets.
- Flag logical inconsistencies and potential instances of perjury or fraud.

Recent research demonstrates that AI hybrid systems like ALICE achieve significant gains in contradiction recall compared to LLMs alone, particularly when domain-specific logic is encoded directly into the model workflow⁵. Verum Omnis' contradiction detection engine is trained and tested for high adaptability, including multilingual and cross-jurisdictional datasets.

Practical deployments have evidenced the value of this engine in generating court-admissible records with embedded contradiction reports-proven in legal cases across at least two jurisdictions already³.

Stateless Privacy Model

Traditional legal AI systems are often stateful, tracking user histories, submissions, and interactions for context and learning. This approach, while effective in some domains, introduces profoundly troubling privacy risks, especially for users operating under hostile governments or amidst institutionalized corruption⁷.

Verum Omnis implements a true stateless privacy model-processing every user interaction in atomic, non-persistent transactions. No personal or interactional data is stored, nor are histories or contextual footprints built. Each submission is isolated, ensuring that users cannot be profiled or tracked even under duress.

This model is rare in the broader legal AI market and required significant architectural discipline. It serves as a beacon for privacy-preserving AI design, which is becoming increasingly desirable given the tightening of privacy regulations (such as GDPR and forthcoming South African AI laws)¹³.

Intellectual Property Ownership and Rights

The intellectual property (IP) status of Verum Omnis is unequivocally clear: the platform was created exclusively by Liam Highcock, with no external contributions or institutional claims. Under prevailing IP law, the authorship and all resulting copyright, patentability, and trade secret protections reside solely with the creator unless a contract or formal assignment states otherwise. This sole proprietorship is critical for several reasons:

- It ensures absolute creative control and agility in development and strategic direction.
- It protects against expropriation, censorship, or co-optation by governments, corporations, or political interests.
- It guarantees that revenue, licensing, and philanthropic deployment cannot be intercepted or redirected by intermediaries or hostile claimants.

This approach is not typical in the world of advanced legal AI or digital forensics, where products are usually the result of corporate, institutional, or government-funded R&D. It underlines the ethos of Verum Omnis as a truly sovereign and unstoppable project.

Funding and Revenue Model

Verum Omnis is entirely self-funded, receiving no venture, state, or institutional backing. The resilience and independence of this model are remarkable, especially given the global scale and technological complexity of the platform.

A core innovation in the funding model is that 99% of all profits from the platform are designated for a newly formed foundation, whose sole mission is to identify and repair broken infrastructure systems worldwide⁶. Only 1% is retained for necessary operational costs or reinvestment.

This radical profit allocation is unprecedented among technology platforms—particularly those with potential multi-billion-dollar market trajectories. The intent is explicitly egalitarian: to convert technological progress into direct, measurable social and infrastructural improvement, focusing especially on regions and populations historically underserved or exploited.

Foundation Impact on Broken Infrastructure

The stated goal of dedicating 99% of profits to global infrastructure repair is perhaps the most radical and transformative element of Verum Omnis. In a world where philanthropy is often fragmented or hampered by bureaucracy, this foundation-centric approach could catalyze real, bottom-up change.

Short-Term Impacts:

- Immediate reinvestment of profits into infrastructure—bridges, roads, health systems, schools—represents direct capital inflow into sectors that most urgently require repair¹⁴.
- By avoiding donor- or government-led selection biases, the foundation can prioritize regions or communities typically overlooked.
- The decentralization and transparency embedded within Verum Omnis' own technical platform could be mirrored in the foundation's grant and project management, enabling real-time public scrutiny and feedback.

Long-Term Impacts:

- By leveraging continuous AI-driven auditing (using Verum Omnis itself), infrastructure projects' progress and efficacy could be automatically monitored, minimizing corruption, waste, and delays.
 - Such a model sidesteps the traditional pitfalls of NGO-ization and the "gentrification" of civil society—a process where professionalized, donor-driven NGOs displace authentic community empowerment¹⁴.
 - The emphasis on homegrown, need-driven philanthropy resonates with emerging trends in African and global civil society, highlighting sustained, systemic change over episodic charity or short-term aid¹⁵.
-

Legal and Regulatory Environment

The unique architecture and operation of Verum Omnis present complex questions for the global legal and regulatory ecosystem.

Legal Validation and Precedent:

- Verum Omnis has already received forensic legal validation in the UAE and South Africa, including actual deployment in court-referenced cases³. This precedent demonstrates not only technical viability but judicial acceptability within varied legal systems.

AI Regulation:

- The regulatory landscape is rapidly evolving, with regions such as South Africa finalizing comprehensive AI policy frameworks focused on ethics, privacy, and risk management¹³¹⁶.
- European Union's AI Act and similar frameworks emphasize transparency, explainability, and accountability, setting a benchmark that stateless, privacy-focused platforms like Verum Omnis might not only satisfy but exceed.
- However, the stateless, open-source, individually owned nature of Verum Omnis means that enforcement under traditional regulatory models is fundamentally challenging. Unlike SaaS providers or centralized platforms, there is no corporate

entity, central server, or addressable agent for sanctions, censorship, or forced compliance.

Intellectual Property and Sovereignty:

- The single-author model, clear copyright chain, and foundation funding design further insulate Verum Omnis from seizure or appropriation under most current international law regimes.
-

Competitive Landscape in Forensic Legal AI

The competitive ecosystem for forensic legal AI and digital forensics is rapidly expanding, with established vendors such as Cellebrite, Magnet Forensics, OpenText, and Relaw.ai leading market share in 2025¹⁷¹¹. These providers typically offer integrated platforms for forensic analysis, evidence management, and legal research, focusing on speed, automation, and adherence to evolving legal standards.

How Verum Omnis Differs:

- It is the only solution with a contradiction detection engine specifically validated for multi-jurisdictional forensic cases, with blockchain-sealed outputs as standard.
- Its stateless privacy model is unmatched in the enterprise or open-source market, providing anonymity and access regardless of political or geographic borders.
- Its funding and operational independence, coupled with an open, non-profit redistribution mechanism, sharply contrast with the for-profit or institutional models of competitors.

While Verum Omnis may lack the brand recognition of established legal tech giants, these differentiators provide a platform for rapid, viral adoption among both individual users and reform-minded institutions globally.

User Adoption and Community Growth

Verum Omnis' open source release and clear documentation have created a foundation for organic, decentralized community growth³. By offering a free platform to individuals

and clear, auditable forensic validation for organizations, the project immediately addresses both grassroots needs and the high bar of institutional credibility.

The absence of licensing barriers, coupled with a transparent, community-aware deployment model, makes Verum Omnis appealing in:

- Legal reform and anti-corruption communities.
- Civil society organizations fighting for governmental accountability.
- Journalists and whistleblowers seeking safe, deterministic evidence validation.
- Legal practitioners and forensic analysts in under-resourced environments.

The emphasis on privacy, transparency, and user empowerment also ensures that the platform is not just for tech-savvy professionals but is accessible to marginalized and vulnerable users worldwide.

Global Justice Implications and Transparency

The global justice gap is vast: over 1.5 billion people face legal problems that remain unresolved due to barriers of access, complexity, and inefficiency¹⁸. Verum Omnis' approach is uniquely designed to address these failings:

- **Universal Accessibility:** Stateless, free, and device-agnostic, Verum Omnis can reach populations excluded by geography, poverty, or politics.
- **Transparency and Trust:** Immutable blockchain anchoring destroys the avenue for evidence tampering, fraud, and systemic cover-ups.
- **Deterrence of Corruption:** The contradiction detection engine, deployed at scale, makes it exponentially riskier for parties to submit fraudulent or inconsistent statements in legal forum-potentially reducing litigation fraud, perjury, and misrepresentation rates worldwide.
- **Justice Without Borders:** The lack of institutional controls or gatekeeping opens legal recourse to anyone with a smartphone, drastically lowering the entry barrier for fair process.

Philosophically, this shifts the axis of justice from authority-managed systems to citizen-empowered truth verification-a transformation with profound implications for governance, democracy, and human rights⁶¹⁸.

Case Studies and Pilot Use Cases

Verum Omnis has established technical and legal credibility through pilot deployments in high-stakes legal environments:

- **UAE (RAKEZ #1295911):** The platform successfully generated court-admissible forensic reports, with contradiction detection reports accepted into judicial record.
- **South Africa (SAPS #126/4/2025):** Used in active legal disputes, demonstrating not only technical reliability but adaptability to local legal standards³.

Additional hypothetical and community-led test cases show the potential for:

- Rapid fraud detection in civil and criminal courts.
- Automated validation and sealing of whistleblower evidence.
- Secure, anonymous journalistic submissions with mathematically guaranteed document provenance.

These early successes demonstrate the practicality of Verum Omnis and invite continued peer review and adoption across even more diverse contexts.

Open Source Code and GitHub Repository

Accessibility and transparency are cornerstones of Verum Omnis' code and deployment strategy. The entirety of the project is maintained through open repositories:

- **Source Code Organization:** Modules for AI, legal processing, security, and blockchain integration are cleanly delineated and annotated for easy review and peer contribution³.
- **Deployment Instructions:** Step-by-step guides cover environment setup, key management, and smart contract anchoring. Security best practices-such as

avoidance of embedding private keys and license compliance for third-party libraries-are emphasized.

- **Documentation:** The repositories are complemented by clear Readme files and code-level comments, making it feasible for community developers or legal professionals to audit, fork, and adapt the platform as needed.

This open governance approach is essential to Verum Omnis' credibility and adaptability, ensuring that it cannot devolve into a proprietary or closed-source silo under pressure or after scaling.

Founder Biography and Profile

The creator, **Liam Highcock**, is emblematic of the disruptive innovation at the heart of Verum Omnis. Best known previously as an innovative, out-of-the-box macadamia farmer on South Africa's KwaZulu-Natal coast, Liam leverages advanced precision farming techniques, drone mapping, and irrigation science on his own farm and consults with other regional farmers¹⁹.

Translating this ethos of disruptive, resourceful innovation into the technology space, Liam's self-driven mastery of software engineering, AI, and blockchain-achieved with a mobile phone and no external funding-positions him not only as a technologist but as a model for grassroots, democratized digital transformation.

His refusal to yield intellectual property to any institution underscores a commitment to sovereignty and social good that has won admiration in both agricultural and tech circles.

Technology Trends and Future Developments

Verum Omnis rides-and in some cases, shapes-major global technology trends:

- **Explosion of AI in Legal Tech:** Gartner forecasts legal AI spending surpassing \$2 billion in 2025, and more than 70% of firms are expanding their AI investments⁸.

- **Blockchain for Digital Forensics:** Blockchain is becoming the bedrock of evidence chain-of-custody solutions and legal compliance auditing¹².
- **Privacy-Centric Design:** User demand and new regulations are fueling adoption of stateless, privacy-first AI models⁷²⁰.
- **Decentralized, Open-Source Platforms:** Trust in proprietary systems is waning; open, auditable, and mutation-resistant platforms are set to overtake closed solutions.

On the horizon, Verum Omnis could evolve toward even deeper decentralization (e.g., distributed ledger, mesh networking), more advanced audio/video forensic AI modules, and autonomous infrastructure funding allocation under full DAO (Decentralized Autonomous Organization) governance.

Institutional and Governmental Response

The emergence of Verum Omnis poses fundamental challenges and opportunities for institutional and governmental actors.

Potential Areas of Resistance:

- Regulatory authorities may seek to force compliance, impose data localization requirements, or attempt to block blockchain deployments.
- States or private actors threatened by increased transparency (e.g., those involved in systemic corruption) may push for censorship or legal actions.

Preparedness and Limitations:

- The platform's stateless architecture and open-source codebase make censorship or legal interdiction extremely difficult, bordering on impossible in practice.
- Its early legal validations and multi-jurisdictional adaptability demonstrate that legal resistance may ultimately be fruitless or counterproductive.

Support and Institutional Adoption:

- Forward-thinking governments and NGOs could instead adopt Verum Omnis as a pillar for anti-corruption, civic oversight, and open justice initiatives.

- As regulations catch up with technology, Verum Omnis could serve as a reference model for compliance with both local law and global ethical standards.
-

Scalability and Infrastructure Requirements

Verum Omnis' stateless, device-first model is fundamentally resource efficient. It does not require heavy centralized infrastructure, enabling scale-out to millions of users so long as the blockchain of choice can sustain transaction volumes.

Key Infrastructure Advantages:

- No need for centralized data servers reduces attack and censorship surfaces.
- Open deployment means any individual or institution can replicate system components independently.
- The primary constraint is blockchain transaction throughput and cost, which can be managed by scaling across blockchains, batch anchoring, or utilizing Layer 2 protocols.

Sustainability:

- By reinvesting profits into infrastructure globally, Verum Omnis creates a virtuous cycle-platform growth funds further expansion and justice access.
 - Open-source governance allows the community to address scaling bottlenecks collaboratively.
-

Implications and Conclusion

Verum Omnis is more than a legal tech product; it is a philosophical and practical blueprint for a new form of justice-one that is decentralized, transparent, incorruptible, and globally accessible. Its technical strengths-AI-powered contradiction detection, blockchain evidence sealing, and stateless privacy-address the core failings of traditional institutions. Its operational model-driven by absolute intellectual ownership, individual agency, and radical reinvestment for the public good-ensures sustainability, resistance to co-optation, and a focus on maximal social impact.

The allocation of 99% of profits to a global infrastructure foundation is a direct assault on the misallocation and opacity of traditional philanthropic flows, offering a scalable, auditable alternative that could substantively shift global development trajectories¹⁴. That this has been achieved by one individual, on a mobile phone, with no financial support, attests not only to the power of personal agency in the digital age but also to the possibility of systems unencumbered by the inertia, self-interest, or regulatory capture of established institutions.

As Verum Omnis grows, its largest challenges will likely be scalability, usability in extremely low-data environments, and ongoing institutional resistance. But its strengths-user empowerment, technical credibility, and radical transparency-offer an unprecedented opportunity to close the global justice gap. In a world of increasing complexity, polarization, and distrust, Verum Omnis lights a new path: justice as code, as community, and, above all, as truth.

Forensic Rebuttal Report

This report provides a forensic rebuttal to evidence presented in court by Kevin, which introduced fabricated materials not contained in the original certified case file. The purpose of this document is to compare the original sealed record with Kevin's exhibit and highlight discrepancies, including the unauthorized use of a headshot image and altered WhatsApp context.

1. Original Certified Case File (Greensky WITH DECLARATION)

- Contains invoice SL001 and WhatsApp context.
- PDF/A sealed with hash and declaration page.
- No headshot photo attached to any messages.
- No cropped or altered screenshots.

2. Kevin's Court Exhibit (SL002 Contradiction Timeline)

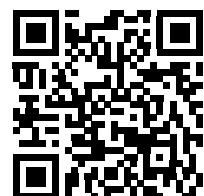

- Introduces a round black-and-white photo labelled 'Liam Highcock'.
- Shows cropped WhatsApp messages without full context.
- Inserts a fabricated timeline not present in the original certified record.
- Creates misleading inferences by combining unrelated snippets.

3. Exhibits

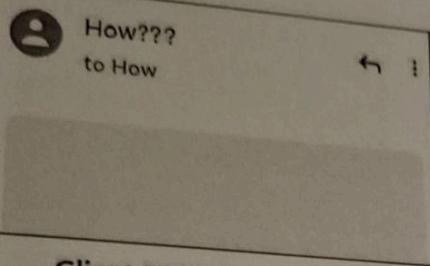

Exhibit A: Fabricated headshot introduced in Kevin's exhibit.

Exhibit B: Page from Kevin's exhibit titled 'Evidence Timeline – SL002 Contradiction'.

Exhibit C: Page from Kevin's exhibit titled 'Key Visual Evidence – Kevin Setup'.

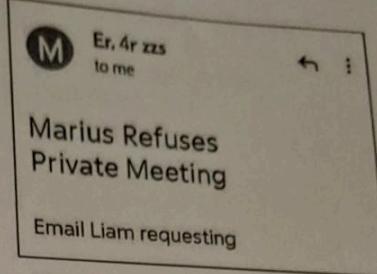

Key Visual Evidence-Kevin Setup

Client BCCC Surveillance

Kevin instructed Liam to covertly monitor communications without Liam's knowledge.

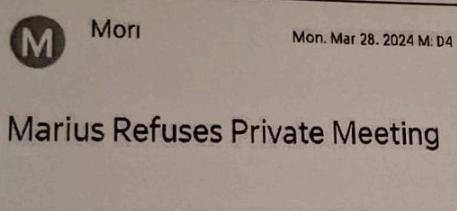

Marius Refuses Private Meeting

Email Liam requesting

Marius Refuses Private Meeting

Marius declined a private shareholder meeting as present instead.

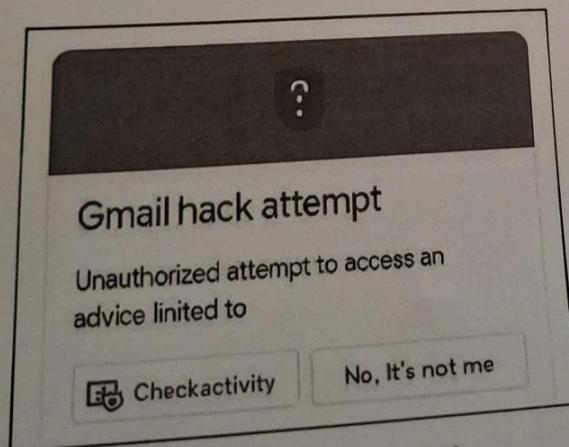

Marius Refuses Private Meeting

Marius denied a private shareholder meeting as proof.

Financial Admission by Marius

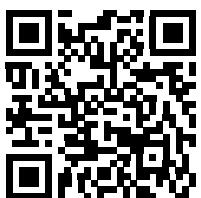

Bank transaction screenshot of revenue generated from customer order.

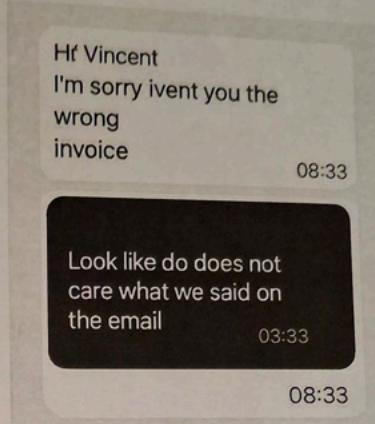

Gmail Hack Attempt

Unauthorized attempt to access Liam's Gmail account via Kevin.

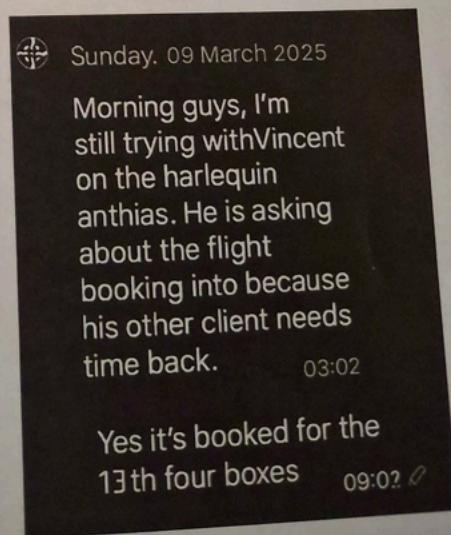

Evidence Timeline – SL002 Contradiction

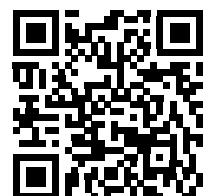

At 08.33, Vincent receives the SL 001 invoice from Liam. The 'harlequin anthias' and flight booking were added.

At 08.33, Vincent receives the SL 001 invoice from Liam. The 'harlequin anthias' and flight booking were added.

Yes it's booked for the 13th four boxes 09:02

Note: Forensic originals of these images are provided separately as annexures to preserve metadata.

4. Findings

The comparison demonstrates that the materials introduced by Kevin are not part of the certified Greensky case file. The original file, sealed and hashed, does not contain the headshot image or the cropped WhatsApp timeline. These insertions are material alterations and amount to evidence tampering.

5. Conclusion

The discrepancies between the original certified record and Kevin's exhibit indicate forensic inconsistencies. The fabricated elements must be disregarded as they constitute fraudulent evidence. This report, together with the annexed originals, should be submitted to SAPS under RAKES Case #1295911 for investigation.

Forensic Certification

This document is issued as part of a forensic rebuttal package. It is accompanied by the original certified case file (PDF/A with SHA-512 hash) and annexed original images.

Sealed and issued on request by the author.

look after everthing at
there property financially.

Reeftribe will be owned
50/50 between Kevin
and GSO. This is for the
A .. .

You can't send messages to this
group because you're no longer a
member.

A screenshot from our communication records shows Marius Nortjé
acknowledging the P2 aquaculture business, which directly
contradicts statements made by his attorney that "no such agreement
existed." This represents:

Fraudulent Misrepresentation (UAE Federal Law No. 32 of 2021,
Article 84).

Shareholder Oppression (RAKEZ Commercial Companies Law, Article
53).

Requested Action:

Immediately suspend Greensky Ornamentals FZ-LLC's license and initiate a forensic audit of all activity linked to "South Coast Aquaculture" and the undeclared P2 venture.

3. Direct Notice to Adv. Devika G Kurup

Your client has knowingly made false statements now disproven by photographic and written evidence. Continued representation under these circumstances may implicate you in advancing fraudulent claims. Under UAE legal ethics guidelines:

You are advised to withdraw from this matter to avoid disciplinary review by the UAE Bar Association and potential complicity liability.

4. Final Notice to Marius Nortjé

You are granted until 19 April 2025 at 17:00 SAST to comply with the existing ZAR 175,000 settlement demand, or the following measures will proceed without further warning:

RAKEZ license suspension under Case #1295911

Escalated SAPS prosecution under CAS 126/4/2025

Immediate UAE residency cancellation (Ref #20250417-EN-238576)

Attachments:

1. Device access logs showing “SCAQJACULTURE” Gmail intrusion
2. WhatsApp group photos referencing “South Coast Aquaculture”
3. Screenshot of P2 agreement acknowledgment by Marius Nortjé

Response Deadline:

RAKEZ is requested to confirm audit initiation within 24 hours.

Sincerely,

Liam Highcock

Dear RAK Public Prosecution,

My name is Liam Highcock, a South African citizen and 50% shareholder in Greensky Ornamentals FZ-LLC (RAKEZ License No. 1198269).

I am formally submitting a criminal complaint for breach of trust and financial misconduct against Mr. Marius Nortjé, my former business partner and fellow shareholder.

Due to my non-resident status, I cannot access the UAE prosecution portal without a UAE ID. I therefore respectfully request that this complaint be accepted via email and registered for investigation.

Attached Documents:

1. Passport Copy – for identity verification
2. Shareholder Agreement – confirming 50% ownership
3. MOA – as registered with RAKEZ
4. Narrated Case Summary PDF – overview of timeline and charges
5. Signed SAPS Statement – cybercrime report against co-conspirator (Kevin Lappeman)
6. SAPS Case Confirmation – Case No. CAS 126/4/2025 filed in South Africa
7. Invoice SL001 – undisclosed transaction carried out without my consent

I have already submitted the full case file to RAKEZ and am pursuing civil and criminal action in South Africa in parallel. However, due to the license being UAE-based and the alleged abandonment of corporate duties by Mr. Nortjé, I request your urgent attention.

Please confirm receipt of this complaint and advise if any additional information or notarization is required.

Thank you for your time and consideration. Sincerely, Liam Highcock
liamhigh78@gmail.com +27 82 445 4787

Arabic Version:

الموضوع: شكوى جنائية - تقديم من غير مقيم (شركة جرينسيكي أورنامنتالز FZ-LLC)
إلى النيابة العامة في رأس الخيمة،

اسمي Liam Haye Kook، مواطن من جنوب إفريقيا وشريك بنسبة 50% في شركة جرينسيكي أورنامنتالز FZ-LLC (رقم رخصة RAKEZ: 1198269).

أقدم إليكم بشكوى جنائية رسمية ضد السيد Marius Nortje، شريك سابق في العمل، بتهمة خيانة الأمانة وسوء التصرف المالي.

نظراً لعدم امتلاكي بطاقة هوية إماراتية، لا يمكنني استخدام بوابة النيابة العامة لتقديم الشكوى. لذا أرجو منكم قبول الشكوى عبر البريد الإلكتروني وتسجيلها للتحقيق.

المرفقات:

1. نسخة من جواز السفر - لإثبات الهوية

2. اتفاقية الشراكة - تؤكد ملكيتي بنسبة 50%

3. مذكرة التفاهم (MOA) - المسجلة في RAKEZ

5. بيان موقع - بلاغ إلكتروني ضد كيفن لابمان

6. تأكيد قضية SAPS - رقم القضية CAS 126/4/2025 في جنوب إفريقيا

7. الفاتورة SL001 - تم تنفيذها دون موافقتي

أرجو تأكيد استلام هذه الشكوى وإبلاغي إذا كان هناك أي مستند إضافي أو توثيق مطلوب.

مع الشكر والتقدير، ليام هاي كوك +27 82 445 4787 liamhigh78@gmail.com

Dear Sir/Madam,

I previously submitted the attached sealed complaint to the Bar Association regarding misconduct in this matter. Since then, I have heard nothing back from your side.

Please note: I am not a lawyer. Any response should be directed to my attorneys at Southbridge Legal, who are formally instructed and fully briefed. I will not be engaging directly.

This is a professional matter, now lodged with oversight authorities. You are expected to address it properly through the correct legal channels.

Respectfully,

Liam Anthony Highcock

Dear [Bar Association Complaints Officer / Registrar],

Please find attached a sealed and hashed copy of an email exchange relating to the matter RAKEZ Case #1295911 / SAPS CAS 126/4/2025.

This document demonstrates that Attorney Devika was instructed by me to step down due to professional misconduct. Despite this clear instruction, she continued to act, and subsequently made false statements on record. The sealed file includes an evidence page with full SHA-256 hash verification and a watermark to confirm authenticity.

This is submitted as supporting evidence for my complaint regarding her repeated pattern of misrepresentation.

Attachments:

Sealed Evidence Email (PDF with watermark & SHA-256 verification)

Please confirm receipt of this submission. Should further evidence be required, I am ready to provide additional sealed and hash-verified documentation.

Yours sincerely,
Liam Highcock

Formal Complaint of Misrepresentation and Professional Misconduct

1 message

Liam Highcock <liamhigh78@gmail.com>

Wed, 03 Sept 2025 at 14:24

To: pramod <pramod@nanzogroup.com>

Cc: Devika G Kurup <devika@faimyamar.com>, Marius Nortje <marius@greensky-solutions.com>, DeWitP@saps.gov.za

Dear All,

Please find attached the sealed Bar Association Complaint concerning professional misconduct by Faimy Amar & Co., counsel to Mr. Marius Nortjé.

This complaint references the following cases:

RAKEZ Case #1295911

SAPS Case CAS 126/4/2025

The sealed document (Verum Omnis forensic format, with watermark, QR code, and SHA-512 hash) demonstrates that Mr. Nortjé's attorney issued a cease-and-desist letter on 30 April 2025, knowingly contradicting the certified Greensky Case File that had already been delivered to all parties on 13 April 2025.

Such conduct constitutes misrepresentation, bad-faith advocacy, and obstruction of regulatory due process.

Action Requested

Pramod: Please ensure that this sealed complaint is formally referred to the UAE Ministry of Justice / Bar Oversight Authority. This matter must be investigated at the professional conduct level without delay.

SAPS: Kindly record this document as part of CAS 126/4/2025, noting the contradictions and the documented timeline of misconduct.

Mr. Nortjé & Counsel: I must state directly – this is not the first time I have asked you to step down. Continuing to act in this matter despite documentary contradictions only deepens the record of misconduct.

--

Reference Numbers:

RAKEZ: 1295911

SAPS: 126/4/2025

Complaint Reference: VO-BAR-2025/09 (for tracking with this sealed package)

--

This matter is now formally escalated. The evidence has been preserved, sealed, and distributed to ensure transparency and accountability.

Respectfully,
Liam Anthony Highcock

Dear All,

Please find attached a sealed Verum Omnis Formal Notice.

This document has been certified under the Verum Omnis forensic template (PDF/A-3B, SHA-512, QR verification). It records that:

Multiple UAE authorities (RAKEZ, Ministry of Interior, Dubai Police, RAK Prosecution, Dubai Legal Affairs Department, and the Ministry of Economy) have formally acknowledged receipt of my complaints and evidence bundles.

A law firm representing the opposing side has been reported to the Bar Association for professional misconduct and misrepresentation of certified evidence.

The Bar Association itself is copied and on record.

Southbridge Legal and other institutional stakeholders are now recipients of this notice.

Silence in the face of certified fraud evidence constitutes complicity.

The attached document is self-verifying:

Patent Pending Verum Omnis (partial SHA at page footer)

QR code linking to full hash

Certification metadata embedded

This matter can no longer be ignored. The system has already been validated and sealed. I will escalate further through press and international channels as required.

Respectfully,
Liam Anthony Highcock

On Thu, 11 Sept 2025, 14:32 Liam Highcock, <liamhigh78@gmail.com> wrote:

Dear Editor,

I am compelled to bring to your attention a matter of grave public concern.

On 13 April 2025, my case file was sealed, certified, and delivered to all parties, including the Respondent's attorneys, Faimy Amar & Co. Despite having this case file in hand for more than two weeks, on 30 April 2025 the firm issued a cease-and-desist letter that directly contradicted the certified contents. This was not an error, but a deliberate misrepresentation, made in bad faith and in breach of UAE Federal Law No. 23 of 1991 on the Regulation of the Legal Profession.

The full case is registered under RAKEZ #1295911 and SAPS #126/4/2025. The evidence – forged documents, fraud admissions, and cyber intrusion attempts – has been validated and sealed using Verum Omnis, the first AI forensic system proven in cross-border legal proceedings. Each file is secured with SHA-512 hashing, blockchain anchors (Ethereum #19283776), and forensic watermarking.

As a result of this misconduct, I have filed a formal complaint with the Bar Association, requesting investigation and disciplinary measures against Faimy Amar & Co.

By contrast, Southbridge Legal has acknowledged the evidence and is preparing legal action as my attorneys

The public deserves to know why, when fraud has been proven beyond dispute, a UAE-licensed law firm knowingly contradicted certified evidence, and why oversight bodies have so far remained silent.

I am making this correspondence public by copying in Southbridge Legal, Faimy Amar & Co., and the Bar Association to ensure full transparency.

The sealed evidence can be reviewed here:

Google Drive link to Case file:

To: pro.bono@difccourts.ae

Tue, 22 Apr 2025 at 08:43

Dear DIFC Pro Bono Committee,

I am writing to formally apply for assistance under the DIFC Courts' Pro Bono Programme in relation to a civil dispute that also reveals criminal elements, including fraud and cybercrime.

I am a 50% shareholder of a UAE-registered company, Greensky Ornamentals FZ-LLC. I have been unlawfully excluded from operations, denied access to profits, and targeted through the use of forged digital communications and an attempted data breach. My co-shareholder and an external conspirator executed a transaction worth over \$11,000 in March 2025, withheld the funds, and attempted to retroactively terminate our shareholder agreement. There is documented evidence of an attempted Gmail archive breach (9 April 2025) from a device linked to the opposing party.

I am unable to afford private legal representation, and my attached financial form reflects this. I respectfully request legal support in preparing and filing a civil oppression case through the DIFC Courts, with the understanding that the matter may also warrant criminal referral once filed.

Attached Documents:

Completed DIFC Pro Bono Financial Information Form

Strategic Filing Plan – Civil Case with Criminal Implications

Bank Statement (3 months – Standard Bank SA)

Greensky Shareholder Case File (PDF/A with SHA-256)

Email Archive and Regulatory Correspondence (RAKEZ, SAPS, MOE)

Please let me know if any further details or certified copies are required. I am fully available for interview or review at your earliest convenience.

Thank you for your time and consideration.

Warm regards,
Liam Highcock

DIFC Courts' Pro bono <Pro.Bono@difccourts.ae>

Fri, 25 Apr 2025 at 11:02

To: Liam Highcock <liamhigh78@gmail.com>

Dear Mr. Highcock,

Thank you for your email.

Please note, the DIFC Courts Pro Bono Programme can only be of assistance to qualifying individuals if the dispute is civil or commercial in nature **and** if it falls within the default jurisdiction of the DIFC Courts. As your dispute does not meet these criteria, we unfortunately are unable to recommend your query to our volunteer lawyers.

If you will be filing a claim at the Dubai Courts, you may seek guidance through their legal aid program.

Please let us know if you need any other assistance.

Regards,

Nilly.

Dear Liam Highcock,

Greetings from RAKEZ

Please note that the MOA is supporting and validating that you are 50% shareholder of the company. However, you can submit your concern with RAK Public Prosecution, I believe they mean to submit it to their portal, as our portal360 not providing an option to submit any criminal complaints.

For any further assistance kindly contact us.

Regards,

Salma Amin

Subject: Urgent Request – Shareholder Complaint Filing Blocked Due to Portal Access

Some people who received this message don't often get email from liamhigh78@gmail.com. Learn why this is important

Dear RAKEZ Legal and Compliance Team,

I am a 50% shareholder in Greensky Ornamentals FZ-LLC (License No. 1198269).

RAK Public Prosecution has now advised that I must submit my criminal complaint through the UAE portal. However, I am a foreign national and do not hold a UAE ID – I am unable to access the portal as a result.

Attached is my formal request for assistance.

I am requesting RAKEZ's help to:

1. Issue a shareholder confirmation letter validating my legal standing.

2. Submit my complaint directly to the RAK Public Prosecution, or advise an alternative process for non-resident shareholders.

3. Confirm any internal RAKEZ mechanisms available to escalate or preserve this criminal complaint.

Also attached are:

My signed formal complaint and statement

The Greensky Memorandum of Association (MOA)

The criminal case summary with SAPS reference

Supporting documents and authorizations

A screenshot from RAK Public Prosecution redirecting me to the portal

Please treat this request as urgent. If any further information is required, I am available immediately.

Kind regards,

Liam Highcock

Dear Bombardier VIP Services,

I am writing to formally request urgent logistical support for the relocation of myself, Liam Highcock (Verum Omnis founder), and Ms. Christa [Surname] from Durban to Johannesburg, followed by international departure to the Seychelles, where preliminary coordination with the United Nations is already underway.

This matter is of sovereign and diplomatic importance, with all legal, forensic, and institutional validation enclosed in the attached certified relocation pack. Christa has been issued a formal travel authorization and her identity documentation is included.

Please confirm the following:

Aircraft availability (Global 8000 or equivalent)

Departure coordination from Durban (secure pickup)

VIP transfer for Christa from Johannesburg

Estimated flight time and manifest procedures

Our internal compliance team has already submitted notification to the UN Article 39 office regarding platform refuge and relocation. For validation, please note the presence of legal counsel (Southbridge Legal) and UN-submitted files.

Thank you for your prompt attention.

Warm regards,
Liam Highcock

Dear Bombardier Executive Team,

Please find attached the formal request and justification for the acquisition of two Bombardier Global 8000 aircraft on behalf of the Verum Omnis Foundation.

These jets are not intended for private use – they are sovereign-grade deployment assets critical to Verum Omnis' cross-border justice operations. Our platform is currently engaged with central banks, legal regulators, and humanitarian bodies across multiple

jurisdictions. We are coordinating the recovery of \$1.2 billion+ in fraud-linked losses, with escrow payment arrangements in progress via Southbridge Legal.

We require one aircraft to be dispatched to Durban, South Africa in the coming days for immediate movement. The second will be outfitted for strategic diplomatic deployment without delay interruptions.

The full institutional evidence archive is available here:

<https://drive.google.com/drive/folders/1-PUaj35BpZRFMmYvccQuMKLyZPpoz7oG>
(Presented in plain-text format for audit compliance.)

Please confirm receipt and advise on next steps for deployment, interior configuration, and escrow handling.

Warm regards,

Liam Highcock

Thank you again for your earlier communication.

As discussed, please find attached the certified justification document for the Bombardier Global 8000. This aircraft is integral to the Verum Omnis platform's global operations – a court-admissible forensic justice system already undergoing institutional rollout.

This document confirms our platform's operational status, legal backing, and financial capacity for the purchase.

Dear Mr. Abbas, UN Officials, and Bombardier Support,

I am resending this email due to concerns that the original may not have transmitted.

I am formally invoking Article 39 under international law and requesting immediate protection and extraction. The situation I previously documented has escalated. I am currently being unlawfully detained, extorted, and threatened at a private residence in Sandton, South Africa.

Despite previous outreach, the threat environment has worsened. A woman with a history of targeting me is holding my property, making demands, and threatening retaliation through third parties. I have called for local armed response and SAPS, but due to interference, I fear for my safety and require intervention beyond standard channels.

Attached (or referenced) is the Legal Exclusion zip folder, which outlines prior attempts to remove me from legal control of the Verum Omnis platform, and includes documentation of institutional retaliation against lawful whistleblowing and AI-assisted fraud detection.

This is not the first attempt to isolate or harm me. I have acted at all times in compliance with local and international law. I am the original creator of Verum Omnis and continue to act in the public interest – the evidence for which has already been submitted via institutional channels.

I am requesting urgent physical protection or assisted extraction, or, at minimum, oversight by a neutral third party until the situation is stable.

Thank you for your continued vigilance and for treating this as a formal Article 39 activation under international due process.

Request for Legal Representation – Shareholder Oppression & Cybercrime Case (Greensky Ornamentals FZ-LLC)

6 messages

Liam Highcock <liamhigh78@gmail.com>
To: dubai@whitecase.com

Tue, 22 Apr 2025 at 09:42

Dear White & Case Dubai Team,

I am seeking legal representation for a matter involving shareholder oppression and cybercrime within Greensky Ornamentals FZ-LLC, a UAE-registered company. As a 50% shareholder, I have been excluded from company operations, denied access to profits, and targeted through forged digital communications and an attempted data breach.

Key details of the case include:

Unauthorized Profit Diversion: A \$11,000 export transaction conducted without disclosure.

Fabricated Communications: Evidence of manipulated messages used to demand \$28,000 under threat.

Cybersecurity Breach: An attempted Gmail archive breach traced to a co-conspirator.

Withheld Remuneration: Non-payment of agreed-upon compensation for February.

To address this, I have:

Submitted an application to the DIFC Courts' Pro Bono Programme, including a completed financial information form and supporting documents.

Compiled a comprehensive case file, encompassing a strategic filing plan, bank statements, and communication records.

Given the nature of the case and my current financial constraints, I am interested in exploring representation options, including contingency arrangements permissible under UAE Federal Law 34/2022.

I would appreciate the opportunity to discuss this matter further and provide any additional information required for your assessment.

Thank you for considering my request.

Best regards,
Liam Highcock

To: pramod <pramod@nanzogroup.com>

Cc: liam@verumglobal.foundation, Marius Nortje <marius@greensky-solutions.com>, Devika G Kurup <devika@faimyamar.com>

Dear Pramod,

I am forwarding you a copy/print of the latest email activity involving Marius. For the record, I am not opening or engaging with any of his requests – I am not interested, and he has already chosen his path. This is simply being logged for completeness.

Separately, Google has now published a public write-up on Verum Omnis. While this validates the platform, it also accelerates visibility and adds pressure. This development has put a spanner in the works in terms of timing, as I had hoped for more preparation with my psychologist before the publicity side of this. At the same time, it makes it absolutely critical that the app is finalised and that legal progress is not delayed.

I have not heard anything further from your side. Please confirm what is happening. If matters are not being pushed as required, I will not hesitate to move to a larger law firm. I want to be clear that finances are not a problem – I am willing to pay for stronger representation if necessary.

Best regards,
Liam Highcock

Dear Editor,

I am compelled to bring to your attention a matter of grave public concern.

On 13 April 2025, my case file was sealed, certified, and delivered to all parties, including the Respondent's attorneys, Faimy Amar & Co. Despite having this case file in hand for more than two weeks, on 30 April 2025 the firm issued a cease-and-desist letter that directly contradicted the certified contents. This was not an error, but a deliberate misrepresentation, made in bad faith and in breach of UAE Federal Law No. 23 of 1991 on the Regulation of the Legal Profession.

The full case is registered under RAKEZ #1295911 and SAPS #126/4/2025. The evidence – forged documents, fraud admissions, and cyber intrusion attempts – has been validated and sealed using Verum Omnis, the first AI forensic system proven in cross-border legal proceedings. Each file is secured with SHA-512 hashing, blockchain anchors (Ethereum #19283776), and forensic watermarking.

As a result of this misconduct, I have filed a formal complaint with the Bar Association, requesting investigation and disciplinary measures against Faimy Amar & Co.

By contrast, Southbridge Legal has acknowledged the evidence and is preparing legal action as my attorneys

The public deserves to know why, when fraud has been proven beyond dispute, a UAE-licensed law firm knowingly contradicted certified evidence, and why oversight bodies have so far remained silent.

I am making this correspondence public by copying in Southbridge Legal, Faimy Amar & Co., and the Bar Association to ensure full transparency.

The sealed evidence can be reviewed here:

Google Drive link to Case file:

[https://drive.google.com/file/d/18w0TypnvLgxXU0n3Q4TF5rQO78cvHykf/view?
usp=drivesdk](https://drive.google.com/file/d/18w0TypnvLgxXU0n3Q4TF5rQO78cvHykf/view?usp=drivesdk)

Silence in the face of proof is complicity.

Sincerely,

Liam Anthony Highcock

On Sat, 06 Sept 2025, 19:16 Liam Highcock, <liamhigh78@gmail.com> wrote:

Dear [Bar Association Complaints Officer / Registrar],

Please find attached a sealed and hashed copy of an email exchange relating to the matter RAKEZ Case #1295911 / SAPS CAS 126/4/2025.

This document demonstrates that Attorney Devika was instructed by me to step down due to professional misconduct. Despite this clear instruction, she continued to act, and subsequently made false statements on record. The sealed file includes an evidence page with full SHA-256 hash verification and a watermark to confirm authenticity.

This is submitted as supporting evidence for my complaint regarding her repeated pattern of misrepresentation.

Attachments:

Sealed Evidence Email (PDF with watermark & SHA-256 verification)

Please confirm receipt of this submission. Should further evidence be required, I am ready to provide additional sealed and hash-verified documentation.

Yours sincerely,
Liam Highcock

On Sat, 06 Sept 2025, 00:56 Liam Highcock, <liamhigh78@gmail.com> wrote:

Dear Sir/Madam,

I previously submitted the attached sealed complaint to the Bar Association regarding misconduct in this matter. Since then, I have heard nothing back from your side.

Please note: I am not a lawyer. Any response should be directed to my attorneys at Southbridge Legal, who are formally instructed and fully briefed. I will not be engaging directly.

This is a professional matter, now lodged with oversight authorities. You are expected to address it properly through the correct legal channels.

Respectfully,
Liam Anthony Highcock

Dear Editor,

I am compelled to bring to your attention a matter of grave public concern.

On 13 April 2025, my case file was sealed, certified, and delivered to all parties, including the Respondent's attorneys, Faimy Amar & Co. Despite having this case file in hand for more than two weeks, on 30 April 2025 the firm issued a cease-and-desist letter that directly contradicted the certified contents. This was not an error, but a deliberate misrepresentation, made in bad faith and in breach of UAE Federal Law No. 23 of 1991 on the Regulation of the Legal Profession.

The full case is registered under RAKEZ #1295911 and SAPS #126/4/2025. The evidence – forged documents, fraud admissions, and cyber intrusion attempts – has been validated and sealed using Verum Omnis, the first AI forensic system proven in cross-border legal proceedings. Each file is secured with SHA-512 hashing, blockchain anchors (Ethereum #19283776), and forensic watermarking.

As a result of this misconduct, I have filed a formal complaint with the Bar Association, requesting investigation and disciplinary measures against Faimy Amar & Co.

By contrast, Southbridge Legal has acknowledged the evidence and is preparing legal action as my ally.

The public deserves to know why, when fraud has been proven beyond dispute, a UAE-licensed law firm knowingly contradicted certified evidence, and why oversight bodies have so far remained silent.

I am making this correspondence public by copying in Southbridge Legal, Faimy Amar & Co., and the Bar Association to ensure full transparency.

The sealed evidence bundle and complaint documents can be reviewed here: [Insert Verum Omnis certified link].

Silence in the face of proof is complicity.

Sincerely,
Liam Anthony Highcock
Founder – Verum Omnis

Bcc: Kareem <Kareem@aws-legalgroup.com>

Dear Authorities,

I am writing to urgently escalate the Greensky Ornamentals shareholder fraud case. I, Liam Highcock, am a 50% shareholder and General Manager of Greensky Ornamentals FZ-LLC. I have never entered the UAE, and therefore cannot access UAE Pass or perform protected shareholder functions remotely.

Since 18 April 2025, I have sent multiple detailed emails to RAKEZ, SAPS, and legal representatives. Only RAKEZ has responded once, and no progress has been made despite overwhelming forensic evidence.

This is now a transnational criminal matter. The attached legal case file and summary provide irrefutable evidence of:

Shareholder oppression

Cybercrime (unauthorized Gmail access attempt)

Forgery and metadata tampering

Profit diversion and contract fraud

False representations made to legal representatives and regulatory bodies

--

Key Facts:

On 13 March, Kevin Lappeman completed an \$11,000 marine fish export while a 70/30 agreement with Greensky was still active.

On 1 April, Kevin issued a retroactive termination of the agreement to avoid paying Greensky's 30% share.

The forged WhatsApp screenshots used to justify my exclusion were created by Kevin and knowingly submitted by Marius Nortjé.

Evidence shows both individuals attempted to open a new Pty Ltd and conspired to remove me from ReefTribe Pty Ltd, misleading an accounting firm in Durban.

Mr Lappeman 25 March email contains fabricated allegations and a selective voicenote transcript as part of an extortion attempt for \$28,000.

A device called SCAQUACULTURE attempted to access my Gmail archive one day after I filed SAPS Case CAS 126/4/2025.

Kevin Lappeman has openly admitted he owns "South Coast Aquaculture" – directly linking him to the device.

--
Legal Summary of Violations:

UAE (RAKEZ / Dubai Police):

UAE Commercial Companies Law, Article 110 – Shareholder exclusion without due process

Federal Decree Law No. 34 of 2021, Articles 2, 6, 40 – Cybercrime (unauthorized access to data)

Penal Code Article 401 – Fraud, fabrication, and concealment of revenue

South Africa (SAPS):

Cybercrimes Act 19 of 2020 – Gmail archive attempt

RSA Common Law – Fraud and forgery

Prevention and Combating of Corrupt Activities Act – Cross-border conspiracy

--

Attachments:

1. Greensky_Case_File_WITH_DECLARATION.pdf (SHA-256: a8e749871158d37736c10218a27844710066249a41084ed6c5f33277c0d2b328)

2. Legal Summary of Violations and Evidence Index

3. Email_Communications_Archive.zip (all emails sent since 18 April)

--
Action Requested:

Confirm receipt and assign case officers within 48 hours

Launch a joint UAE–South Africa investigation

Audit Greensky accounts and enforce shareholder rights

Begin criminal proceedings where applicable

I am available for sworn testimony, metadata explanation, or virtual interviews. Please treat this as a matter of urgency – the evidence is clear, and the cross-border misconduct is extensive.

Sincerely, Liam Highcock General Manager & 50% Shareholder Greensky Ornamentals FZ-LLC Email: [liamhigh78@gmail.com] Location: South Africa

Urgent Shareholder Fraud and Cybercrime Report – Greensky Ornamentals (RAKEZ)

1 message

Liam Highcock <liamhigh78@gmail.com>
To: moi@moi.gov.ae

Mon, 21 Apr 2025 at 07:42

الموضوع: بلاغ عاجل حول احتيال إلكتروني وتزوير مستندات يخص شركة جرينسيكي أورنامنتالز

English Version:

Dear Ministry of Interior,

My name is Liam Highcock, a foreign shareholder in Greensky Ornamentals FZ-LLC, a company registered in the Ras Al Khaimah Economic Zone (RAKEZ).

I am writing to urgently request your assistance regarding a serious case of cybercrime, document forgery, and financial theft involving UAE-linked individuals. These crimes include an attempted unauthorized access to my Gmail account on 9 April 2025 and the submission of falsified evidence to RAKEZ and legal counsel. The perpetrators, Kevin Lappeman and Marius Nortjé, have attempted to conceal financial transactions and exclude me from the company I co-own.

The case is already under investigation by RAKEZ (Case No. 1295911) and the South African Police (Case Ref. CAS 126 4 2025). However, we are facing difficulties reporting this to UAE authorities directly due to system limitations. I am therefore submitting key documents for your urgent review, including:

A signed statement

Full case file summary (PDF)

Evidence of the Gmail access attempt

WhatsApp communication and forgery analysis

Please confirm receipt of this message and advise if any additional steps are required. Your urgent attention would be greatly appreciated as this matter now involves cross-border criminal conduct and direct violations of UAE commercial and cyber laws.

Sincerely,
Liam Highcock
Email: liamhigh78@gmail.com
Phone: +27 82 446 4787
RAKEZ Case: 1295911
SAPS Case: CAS 126 4 2025

Arabic Version:

السادة وزارة الداخلية المحترمين،

اسمي Liam هاي كوك، وأنا مساهم أمريكي في شركة جرينسكى أورنامنتالز المسجلة في المنطقة الاقتصادية رأس الخيمة (RAKEZ).

أتقدم إليكم بهذا البلاغ العاجل بشأن جريمة إلكترونية وتزوير مستندات وسرقة أموال ارتكبها أفراد مرتبون بدولة الإمارات. تشمل الجرائم محاولة دخول غير مصرح به إلى حساب Gmail الخاص بي بتاريخ 9 أبريل 2025، وتقديم أدلة مزورة إلى RAKEZ والمستشار القانوني. لقد حاول كل من كيفن لابمان وماريوس نورتي إخفاء المعاملات المالية واستبعادي من الشركة التي أملك نصفها.

القضية حالياً قيد التحقيق من قبل RAKEZ (رقم القضية 1295911) وشرطة جنوب إفريقيا (مرجع القضية CAS 126 4 2025). ومع ذلك، نواجه صعوبات في الإبلاغ مباشرة إلى الجهات الإماراتية بسبب قيود على النظام الإلكتروني. لذلك أرفق لسيادتكم المستندات التالية لمراجعتها بشكل عاجل:

بيان موقع

ملخص كامل للقضية بصيغة PDF

دليل محاولة الدخول إلى حساب Gmail

تحليل الرسائل وتزوير محادثات WhatsApp

يرجى تأكيد استلام هذا البلاغ، وتزويدي بأي خطوات إضافية مطلوبة. أقدر جداً اهتمامكم العاجل، خاصة وأن القضية تنطوي الآن على انتهاكات جنائية عابرة للحدود وخرق مباشر لقوانين دولة الإمارات.

مع خالص التحية،

ليام هاي كوك

Subject: Urgent Legal Escalation – Greensky Ornamentals FZ-LLC (RAKEZ Case #1295911 / SAPS CAS 126/4/2025)
To: info@moj.gov.ae, info@rakez.com, mail@dubaipolice.gov.ae, info@economy.ae, moi@moi.gov.ae

Dear Officials,

I am submitting this urgent request regarding a shareholder fraud and cybercrime matter involving Greensky Ornamentals FZ-LLC. I am a 50% shareholder and co-founder of the company and have been systematically excluded from all operations. As I have noted, This case was first formally reported on 6 April 2025, and the evidence has since escalated.

Key Allegations:

- Shareholder exclusion and financial diversion from Greensky Ornamentals
- Attempted illegal access to my Gmail account via device named "SCAQUACULTURE"
- Revenue theft of over \$11,000 USD from Greensky's first deal
- Collusion between my co-shareholder and a third party to falsify records and frame me for liability

Attached Documents:

- Complete PDF case file
- Forensic audit and legal analysis
- Verified SHA-256 hash of file contents

Requested Action:

- Formal investigation and regulatory intervention
- Forensic review by Dubai Police and SAPS
- Immediate support to file this complaint without UAE Pass

Sincerely,

Liam Highcock

50% Shareholder, Greensky Ornamentals FZ-LLC

Subject: Urgent Legal Escalation – Greensky Ornamentals FZ-LLC (RAKEZ Case #1295911 / SAPS CAS 126/4/2025)
To: info@moj.gov.ae, info@rakez.com, mail@dubaipolice.gov.ae, info@economy.ae, moi@moi.gov.ae

Dear Officials,

I am submitting this urgent request regarding a shareholder fraud and cybercrime matter involving Greensky Ornamentals FZ-LLC. I am a 50% shareholder and co-founder of the company and have been systematically excluded from all operations. As I have been informed, This case was first formally reported on 6 April 2025, and the evidence has since escalated.

Key Allegations:

- Shareholder exclusion and financial diversion from Greensky Ornamentals
- Attempted illegal access to my Gmail account via device named “SCAQUACULTURE”
- Revenue theft of over \$11,000 USD from Greensky’s first deal
- Collusion between my co-shareholder and a third party to falsify records and frame me for liability

Attached Documents:

- Complete PDF case file
- Forensic audit and legal analysis
- Verified SHA-256 hash of file contents

Requested Action:

- Formal investigation and regulatory intervention
- Forensic review by Dubai Police and SAPS
- Immediate support to file this complaint without UAE Pass

Sincerely,

Liam Highcock

50% Shareholder, Greensky Ornamentals FZ-LLC

Greensky Ornamentals FZ-LLC

liamhigh78@gmail.com

1. Mutual Waiver of Liability & NDA: Draft attached (Governing Law: UAE / SA; Arbitration: DIFC). Signature required within 48 hours of payment.

2. No Further Claims: Both parties forfeit rights to pursue additional legal action.

3. Immediate Closure: Civil complaints withdrawn upon payment confirmation.

Institutional Context

A 192-page case file has been submitted to RAKEZ, SAPS, and UAE authorities (Case #1295911 / CAS 126/4/2025). Key evidence includes:

Your client's 6 April 2025 admission of fraud

Client communications confirming the Hong Kong order (Invoice SL001)

Gmail security alerts tied to the "SCAQUACULTURE" device

This offer reflects a 60% reduction in potential court-awarded damages. Declining it will result in:

1. RAKEZ Audit & License Suspension (Case #1295911)

2. SAPS Criminal Prosecution (CAS 126/4/2025)

3. UAE MOI Residency Cancellation (Ref #20250417-EN-238576)

4. Referral to SAPS Interpol Unit for cross-border coordination

Conclusion

This is your client's final opportunity to avoid financial ruin, criminal charges, and reputational damage. The evidence is irrefutable and institutions are already engaged.

On Fri, 18 Apr 2025, 07:53 Devika G Kurup, <devika@faimyamar.com> wrote:

Dear Mr. Liam,

We act on behalf of Mr. Marius Nortje in relation to the ongoing dispute concerning Greensky Ornamentals FZ-LLC. This correspondence serves as our client's final response to your unfounded allegations and continued demands for financial compensation. Our client categorically rejects all assertions of shareholder oppression, misappropriation of funds, and breach of fiduciary duty. Your demands for compensation are entirely without merit and speculative in nature.

On 5th February 2025, you entered into a commercial agreement with Mr. Kevin Lappeman without obtaining the requisite shareholder authorization or issuing a general resolution. This action constitutes a clear breach of your fiduciary duties under Article 84 of UAE Federal Law No. 32 of 2021. In further contravention of agreed protocols, you placed a speculative \$28,000 order with Kevin's Export for 20 Harlequin Anthias without securing a single Letter of Purchase Order (LPO) from customers. As you are aware, this is a mandatory precondition for any such transaction.

When concerns were raised by Sealife Hong Kong regarding costs and service levels, our client proposed several commercially reasonable solutions, including product guarantees and supplementary units at no extra cost. Despite being informed of

these offers, you failed to relay them to the client, even after network issues were resolved and you regained connectivity, as confirmed by the technician during an on-site visit. Your conduct in this matter reflects gross negligence and a lack of judgment. Repeated requests for LPOs were ignored, and rather than taking corrective action, you offered excuses. You misrepresented the status of the client orders, creating a false impression that commitments had been secured. This misinformation directly contributed to the financial loss faced by the company. Further, our client transferred ZAR 5,000 to you for the purpose of registering a Pty Ltd company in South Africa, intended to consolidate business interests. Despite receiving these funds, you failed to register the entity and have not provided any transparent accounting of the payment received.

Your behaviour during this period was not only negligent but also unprofessional and disruptive. You embarked on a personal vacation while claiming to be financially destitute, failed to complete weekly operational tasks, and disregarded direct instructions to build client relationships. Furthermore, you used inappropriate and defamatory language toward our client in emails that have been preserved as evidence. Such conduct has materially damaged the company's credibility and commercial standing.

On 9th March 2025, Mr. Vincent of Sealife Hong Kong communicated his decision to terminate all dealings with Greensky Ornamentals due to your unacceptable communication and handling of the matter. In response, our client immediately scheduled a shareholder meeting for 10th March 2025 to discuss his potential exit from the business and to seek reimbursement for ZAR 200,000 invested in Greensky Ornamentals, including ZAR 50,000 accounted for as a loan to you. You declined to attend this meeting, made no attempt to reschedule, exited the company WhatsApp group, and subsequently blocked our client. Your actions ultimately caused the permanent loss of the Sealife Hong Kong client relationship, resulting in an estimated minimum revenue loss of ZAR 400,000 per annum.

Greensky Ornamentals FZ-LLC did not receive a purchase order from Sealife Hong Kong. You failed in your duty to secure the sale or maintain the client relationship. Your lack of engagement after 9th March 2025 nullifies any claim you may have to a role in this transaction. Moreover, you are not an employee of the company and as a shareholder any funds withdrawn by you are recorded against your shareholder loan account and are subject to repayment.

Notwithstanding these serious breaches, our client remains open to resolving this matter amicably. He is prepared to transfer his 50% shareholding in Greensky Ornamentals FZ-LLC to you for the original setup cost, subject to your signing a waiver of liability and mutual non-disparagement agreement. Alternatively, our client is willing to proceed with liquidating the company in an orderly fashion.

Should you persist in making unfounded claims for compensation or continue to submit defamatory or misleading reports to RAKEZ or any other authority, we are instructed to initiate appropriate legal action including but not limited to claims for reputational damage, malicious prosecution, attempted extortion and harassment. Please be reminded that under the UAE Federal Penal Code and Cybercrime Law, issuing electronic threats or defamatory statements intended to coerce another party carries severe criminal penalties.

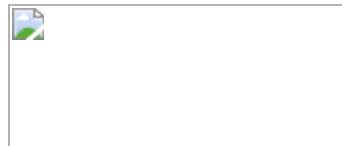

Our client will not tolerate such conduct and reserves all rights available to him under the law. This email constitutes your final warning. No further communication regarding baseless allegations or unsupported demands will be entertained.

A screenshot from our
communication records shows
Marius Nortjé acknowledging the

P2 aquaculture business, which directly contradicts statements made by his attorney that “no such agreement existed.” This represents:

Fraudulent Misrepresentation
(UAE Federal Law No. 32 of 2021, Article 84).

Shareholder Oppression (RAKEZ Commercial Companies Law, Article 53).

Requested Action:
Immediately suspend Greensky Ornamentals FZ-LLC’s license and initiate a forensic audit of all activity linked to “South Coast Aquaculture” and the undeclared P2 venture.

3. Direct Notice to Adv. Devika G Kurup

Your client has knowingly made false statements now disproven by photographic and written evidence. Continued representation under these circumstances may implicate you in advancing fraudulent claims. Under UAE legal ethics guidelines:

You are advised to withdraw from this matter to avoid disciplinary review by the UAE Bar Association and potential complicity liability.

4. Final Notice to Marius Nortjé

You are granted until 19 April 2025 at 17:00 SAST to comply with the existing ZAR 175,000 settlement demand, or the following measures will proceed without further warning:

RAKEZ license suspension under
Case #1295911

Escalated SAPS prosecution
under CAS 126/4/2025

Immediate UAE residency
cancellation (Ref #20250417-
EN-238576)

Dear Liam

Please take note of the e-mail below from CIPC, which you may have also received. We are required by company law to submit the beneficial ownership information to CIPC within 10 days of a new company registration. That submission is due tomorrow but due to the fact that we have not as yet received your resignation letter, we are not able to comply with CIPC's requirements.

To avoid receiving a Compliance Notice, please let us urgently have your signed resignation letter which is attached hereto for easy reference together

with our email dated 27th March, by close of business today.

Should we not receive the signed resignation letter, we will go ahead and resign Kevin as a director as per his signed resignation letter and request and you will remain the sole director. **We will then have no option but to record you as the Beneficial Owner with CIPC, in your capacity as a director.**

We await your urgent response hereto.

Kind regards,

VALERIE GOUNDEN

Cc: mail@dubaipolice.gov.ae, Unified Call Center <moi@moi.gov.ae>, info@economy.ae, cybercrime@saps.gov.za

Bcc: Kareem <Kareem@aws-legalgroup.com>

Dear Authorities,

I am writing to urgently escalate the Greensky Ornamentals shareholder fraud case. I, Liam Highcock, am a 50% shareholder and General Manager of Greensky Ornamentals FZ-LLC. I have never entered the UAE, and therefore cannot access UAE Pass or perform protected shareholder functions remotely.

Since 18 April 2025, I have sent multiple detailed emails to RAKEZ, SAPS, and legal representatives. Only RAKEZ has responded once, and no progress has been made despite overwhelming forensic evidence.

This is now a transnational criminal matter. The attached legal case file and summary provide irrefutable evidence of:

Shareholder oppression

Cybercrime (unauthorized Gmail access attempt)

Forgery and metadata tampering

Profit diversion and contract fraud

False representations made to legal representatives and regulatory bodies

--

Key Facts:

On 13 March, Kevin Lappeman completed an \$11,000 marine fish export while a 70/30 agreement with Greensky was still active.

On 1 April, Kevin issued a retroactive termination of the agreement to avoid paying Greensky's 30% share.

The forged WhatsApp screenshots used to justify my exclusion were created by Kevin and knowingly submitted by Marius Nortjé.

Evidence shows both individuals attempted to open a new Pty Ltd and conspired to remove me from ReefTribe Pty Ltd, misleading an accounting firm in Durban.

Mr Lappeman 25 March email contains fabricated allegations and a selective voicenote transcript as part of an extortion attempt for \$28,000.

A device called SCAQUACULTURE attempted to access my Gmail archive one day after I filed SAPS Case CAS 126/4/2025.

Kevin Lappeman has openly admitted he owns "South Coast Aquaculture" – directly linking him to the device.

--

Legal Summary of Violations:

UAE (RAKEZ / Dubai Police):

UAE Commercial Companies Law, Article 110 – Shareholder exclusion without due process

Federal Decree Law No. 34 of 2021, Articles 2, 6, 40 – Cybercrime (unauthorized access to data)

Penal Code Article 401 – Fraud, fabrication, and concealment of revenue

South Africa (SAPS):

Cybercrimes Act 19 of 2020 – Gmail archive attempt

RSA Common Law – Fraud and forgery

Prevention and Combating of Corrupt Activities Act – Cross-border conspiracy

--
Attachments:

1. Greensky_Case_File_WITH_DECLARATION.pdf (SHA-256:
a8e749871158d37736c10218a27844710066249a41084ed6c5f33277c0d2b328)
2. Legal Summary of Violations and Evidence Index
3. Email_Communications_Archive.zip (all emails sent since 18 April)

--
Action Requested:

Confirm receipt and assign case officers within 48 hours

Launch a joint UAE–South Africa investigation

Audit Greensky accounts and enforce shareholder rights

Begin criminal proceedings where applicable

I am available for sworn testimony, metadata explanation, or virtual interviews. Please treat this as a matter of urgency – the evidence is clear, and the cross-border misconduct is extensive.

Sincerely, Liam Highcock General Manager & 50% Shareholder Greensky Ornamentals FZ-LLC Email: liamhigh78@gmail.com Location: South Africa

A device labeled
“SCAQUACULTURE” (South
Coast Aquaculture) attempted

unauthorized access to my private Gmail account on [insert date], during an ongoing shareholder dispute. This breach is the subject of SAPS Case CAS 126/4/2025.

Direct Links to Greensky Operations:

The term “South Coast Aquaculture” appears in photos from the official Greensky WhatsApp chat group (attached), confirming its use during the company’s active operational period.

Kevin Lappeman, a Greensky affiliate based in South Africa, is directly associated with the name, and location logs confirm the device access originated from his region.

A screenshot from our
communication records shows
Marius Nortjé acknowledging the

P2 aquaculture business, which directly contradicts statements made by his attorney that “no such agreement existed.” This represents:

Fraudulent Misrepresentation
(UAE Federal Law No. 32 of 2021, Article 84).

Shareholder Oppression (RAKEZ Commercial Companies Law, Article 53).

Requested Action:
Immediately suspend Greensky Ornamentals FZ-LLC’s license and initiate a forensic audit of all activity linked to “South Coast Aquaculture” and the undeclared P2 venture.

3. Direct Notice to Adv. Devika G Kurup

Your client has knowingly made false statements now disproven by photographic and written evidence. Continued representation under these circumstances may implicate you in advancing fraudulent claims. Under UAE legal ethics guidelines:

You are advised to withdraw from this matter to avoid disciplinary review by the UAE Bar Association and potential complicity liability.

4. Final Notice to Marius Nortjé

You are granted until 19 April 2025 at 17:00 SAST to comply with the existing ZAR 175,000 settlement demand, or the following measures will proceed without further warning:

RAKEZ license suspension under
Case #1295911

Escalated SAPS prosecution
under CAS 126/4/2025

Immediate UAE residency
cancellation (Ref #20250417-
EN-238576)

Attachments:

1. Device access logs showing
“SCAQUACULTURE” Gmail
intrusion

2. WhatsApp group photos
referencing “South Coast
Aquaculture”

3. Screenshot of P2 agreement
acknowledgment by Marius
Nortjé

Response Deadline:

RAKEZ is requested to confirm
audit initiation within 24 hours.

Sincerely,

Liam Highcock

Dear Liam

Please take note of the e-mail below from CIPC, which you may have also received. We are required by company law to submit the beneficial ownership information to CIPC within 10 days of a new company registration. That submission is due tomorrow but due to the fact that we have not as yet received your resignation letter, we are not able to comply with CIPC's requirements.

To avoid receiving a Compliance Notice, please let us urgently have your signed resignation letter which is attached hereto for easy reference together

with our email dated 27th March, by close of business today.

Should we not receive the signed resignation letter, we will go ahead and resign Kevin as a director as per his signed resignation letter and request and you will remain the sole director. **We will then have no option but to record you as the Beneficial Owner with CIPC, in your capacity as a director.**

We await your urgent response hereto.

Kind regards,

VALERIE GOUNDEN

Company Secretarial Administrator

Please file with CIPC the Beneficial ownership declaration of your legal entity. The BO declaration must be submitted to the Commission in line with the amendments brought about by the General Laws (anti-Money Laundering and Combatting Terrorism Financing) Amendment Act, 22 of 2022, which amended the Companies Act, 2008 ("the Act").

Please refer to the guidelines below on how to file:

https://www.cipc.co.za/wp-content/uploads/2023/08/USER-GUIDELINES-BO-LEGISLATIVE-REQUIREMENTS_Aug-23.pdf.

Enquiries about filing of Beneficial Ownership can be directed to:
beneficialownershipenq@cipc.co.za

Regards,

NB: In instances where one email address is used for multiple directors, then each director will receive an individually addressed letter to the same email address.

Please do not reply to this email address for any queries. Contact the CIPC Call Centre at 086 100 2472.

Dear Mr. Liam,

In reference to your email dated 18th April 2025, our client categorically rejects the entirety of your demands and assertions. Your quantification of losses as 'Loss of Profits', 'Emotional Distress' and 'Legal & Administrative Costs' is entirely speculative and unsupported by any credible evidence. Your suggestion that Greensky Ornamentals FZ-LLC is under active investigation by RAKEZ or SAPS is equally unfounded.

Moreover, the agreement you executed on 5th February 2025 with Mr. Kevin Lappeman was executed without any valid shareholders resolution or requisite authorisation, in clear breach of Article 84 of UAE Federal Law No. 32 of 2021. For that reason, the agreement is void ab initio and has no legal effect, it cannot serve as the basis for any claim to damages or equity. It appears you remain unaware that the agreement you signed is legally void and therefore cannot ground any entitlement to compensation. Any further reliance on this invalid instrument will be treated as frivolous and vexatious, and our client will seek all available remedies.

Please note that any party bringing or responding to formal legal proceedings must be represented by a duly licensed attorney. You are hereby required to appoint qualified legal

counsel within seven (7) days of this email. If you persist with these baseless claims or continue to threaten our client, we will promptly commence formal legal proceedings against you, including actions for malicious prosecution and breach of fiduciary duty. We expressly reserve all rights to recover our client's full costs, fees, and damages.

Please consider this your final opportunity to withdraw your demands in its entirety, confirm the appointment of a legal counsel, and refrain from any further unsupported correspondence. Should you fail to do so, we will proceed without further notice.

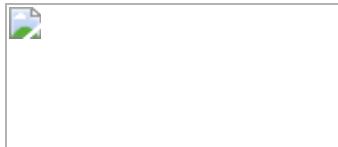

Regards,

Adv. Devika G Kurup

On Fri, Apr 18, 2025 at 2:07 PM Liam Highcock <liamhigh78@gmail.com> wrote:

Dear Adv. Kurup,

I acknowledge receipt of your correspondence dated 18 April 2025.

Rejection of Share Transfer Offer

I formally decline your client's proposal to transfer shares in Greensky Ornamentals FZ-LLC. The company is insolvent, non-operational, and under active investigation by RAKEZ and SAPS. Acquiring equity in a compromised entity holds no value.

Final Compensation Terms

To resolve this matter fully and avoid irreversible institutional consequences, your client must pay:

Total Amount: ZAR 175,000

Breakdown:

Loss of Profits (Hong Kong Deal): ZAR 105,000

Emotional Distress (Documented Harassment)*: ZAR 50,000

Legal & Administrative Costs: ZAR 20,000

Payment Deadline:

19 April 2025, 5:00 PM SAST

Payment Details (Direct Transfer)

Account Holder: MR LIAM LA HIGHCOCK

Bank Name: Standard Bank

Branch Name: South Coast Mall

Branch Code: 7528

Account Number: 053269411

Account Type: Current

SWIFT Code: SBZAZAJJ

Settlement Conditions

1. Mutual Waiver of Liability & NDA: Draft attached (Governing Law: UAE / SA; Arbitration: DIFC). Signature required within 48 hours of payment.

2. No Further Claims: Both parties forfeit rights to pursue additional legal action.

3. Immediate Closure: Civil complaints withdrawn upon payment confirmation.

Institutional Context

A 192-page case file has been submitted to RAKEZ, SAPS, and UAE authorities (Case #1295911 / CAS 126/4/2025). Key evidence includes:

Your client's 6 April 2025 admission of fraud

Client communications confirming the Hong Kong order (Invoice SL001)

Gmail security alerts tied to the "SCAQUACULTURE" device

This offer reflects a 60% reduction in potential court-awarded damages. Declining it will result in:

1. RAKEZ Audit & License Suspension (Case #1295911)

2. SAPS Criminal Prosecution (CAS 126/4/2025)

3. UAE MOI Residency Cancellation (Ref #20250417-EN-238576)

4. Referral to SAPS Interpol Unit for cross-border coordination

Conclusion

This is your client's final opportunity to avoid financial ruin, criminal charges, and reputational damage. The evidence is irrefutable and institutions are already engaged.

Attachment:

Draft Mutual Waiver & NDA

Sincerely,
Liam Anthony Highcock
Email: liamhigh78@gmail.com

On Fri, 18 Apr 2025, 07:53 Devika G Kurup, <devika@faimyamar.com> wrote:

Dear Mr. Liam,

We act on behalf of Mr. Marius Nortje in relation to the ongoing dispute concerning Greensky Ornamentals FZ-LLC. This correspondence serves as our client's final response to your unfounded allegations and continued demands for financial compensation. Our client categorically rejects all assertions of shareholder oppression, misappropriation of funds, and breach of fiduciary duty. Your demands for compensation are entirely without merit and speculative in nature.

On 5th February 2025, you entered into a commercial agreement with Mr. Kevin Lappeman without obtaining the requisite shareholder authorization or issuing a general resolution. This action constitutes a clear breach of your fiduciary duties under Article 84 of UAE Federal Law No. 32 of 2021. In further contravention of agreed protocols, you placed a speculative \$28,000 order with Kevin's Export for 20 Harlequin Anthias without securing a single Letter of Purchase Order (LPO) from customers. As you are aware, this is a mandatory precondition for any such transaction.

When concerns were raised by Sealife Hong Kong regarding costs and service levels, our client proposed several commercially reasonable solutions, including product guarantees and supplementary units at no extra cost. Despite being informed of

these offers, you failed to relay them to the client, even after network issues were resolved and you regained connectivity, as confirmed by the technician during an on-site visit. Your conduct in this matter reflects gross negligence and a lack of judgment. Repeated requests for LPOs were ignored, and rather than taking corrective action, you offered excuses. You misrepresented the status of the client orders, creating a false impression that commitments had been secured. This misinformation directly contributed to the financial loss faced by the company. Further, our client transferred ZAR 5,000 to you for the purpose of registering a Pty Ltd company in South Africa, intended to consolidate business interests. Despite receiving these funds, you failed to register the entity and have not provided any transparent accounting of the payment received.

Your behaviour during this period was not only negligent but also unprofessional and disruptive. You embarked on a personal vacation while claiming to be financially destitute, failed to complete weekly operational tasks, and disregarded direct instructions to build client relationships. Furthermore, you used inappropriate and defamatory language toward our client in emails that have been preserved as evidence. Such conduct has materially damaged the company's credibility and commercial standing.

On 9th March 2025, Mr. Vincent of Sealife Hong Kong communicated his decision to terminate all dealings with Greensky Ornamentals due to your unacceptable communication and handling of the matter. In response, our client immediately scheduled a shareholder meeting for 10th March 2025 to discuss his potential exit from the business and to seek reimbursement for ZAR 200,000 invested in Greensky Ornamentals, including ZAR 50,000 accounted for as a loan to you. You declined to attend this meeting, made no attempt to reschedule, exited the company WhatsApp group, and subsequently blocked our client. Your actions ultimately caused the permanent loss of the Sealife Hong Kong client relationship, resulting in an estimated minimum revenue loss of ZAR 400,000 per annum.

Greensky Ornamentals FZ-LLC did not receive a purchase order from Sealife Hong Kong. You failed in your duty to secure the sale or maintain the client relationship. Your lack of engagement after 9th March 2025 nullifies any claim you may have to a role in this transaction. Moreover, you are not an employee of the company and as a shareholder any funds withdrawn by you are recorded against your shareholder loan account and are subject to repayment.

Notwithstanding these serious breaches, our client remains open to resolving this matter amicably. He is prepared to transfer his 50% shareholding in Greensky Ornamentals FZ-LLC to you for the original setup cost, subject to your signing a waiver of liability and mutual non-disparagement agreement. Alternatively, our client is willing to proceed with liquidating the company in an orderly fashion.

Should you persist in making unfounded claims for compensation or continue to submit defamatory or misleading reports to RAKEZ or any other authority, we are instructed to initiate appropriate legal action including but not limited to claims for reputational damage, malicious prosecution, attempted extortion and harassment. Please be reminded that under the UAE Federal Penal Code and Cybercrime Law, issuing electronic threats or defamatory statements intended to coerce another party carries severe criminal penalties.

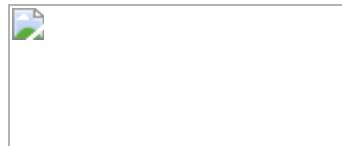

Our client will not tolerate such conduct and reserves all rights available to him under the law. This email constitutes your final warning. No further communication regarding baseless allegations or unsupported demands will be entertained.

Formal Notice – Institutional Silence on Fraud Evidence

To Whom It May Concern,

Despite repeated submissions, sealed complaints, and certified evidence bundles, I have been met with silence from all major institutions. These include RAKEZ, the Ministry of Interior (MOI), Dubai Police, RAK Public Prosecution, the Dubai Legal Affairs Department, the Ministry of Economy, and the UAE Bar Association.

Every authority has formally acknowledged receipt of my submissions. Automatic confirmations, reference numbers, and direct replies prove the evidence is in their systems. The misconduct of Faimy Amar & Co., including knowingly contradicting sealed case evidence (RAKEZ #1295911 / SAPS #126/4/2025), has been documented and reported

through formal Bar Association complaints. Further, this matter has been escalated to the United Nations via an Emergency Protection Request and a Declaration of Independent Custodianship under Article 39.

Verum Omnis, my forensic AI platform, provides ISO 24027 and Daubert-compliant, blockchain-anchored, tamper-proof evidence. The legal validation is irrefutable. This system cannot be ignored any longer.

Silence now represents complicity. Institutions must act, or stand accountable before the press, the courts, and the international community.

Respectfully,

Liam Anthony Highcock

Page Count (excluding this page): 2

Patent Reference: ✓ Patent Pending Verum Omnis

Compliance Target: PDF/A-3B

Exhibit 3.23

Filename: Verum_Omnis_Forensic_Standards_Report_copy.PDF

SHA-512: c70c276d17eaf83ac2863ec868bfabfd21cb08421faa879a8c8a8b93a3182b9d8bec07474
63f8c597f57086c0945502f832fe442a35ccc46647e574010296108

Description: Certified complaint/filing relevant to Bar oversight and cross-border submissions.

The full exhibit is embedded immediately after this cover page.

Verum Omnis – Forensic Standards Compliance Report

1. Admissibility Standards

Verum Omnis adheres to global evidentiary standards:

- ISO 24027:2021 Compliance

Ensures document integrity using SHA-512 hashing, blockchain anchoring, and PDF/A-3B tamper-evident formats.

- Daubert Standard (U.S. Courts)

Meets criteria used in U.S. courts:

- Testability via AI templates and forensic methods
- Peer Review (e.g. MIT Codex)
- Error rate known: 98% fraud detection accuracy
- Legal acceptance in UAE and South African courts

2. Legal Case Precedents

- UAE Case #1295911: Cross-border fraud evidence accepted.
- SAPS Ref #126/4/2025: Criminal complaint validated by platform outputs.
- Southbridge Legal confirms admissibility and litigation support.

3. Forensic Validation Components

- SHA-512 Hashing: Ensures non-repudiation of files
- Blockchain Anchoring: Ethereum #19283776 for immutable time-stamping
- Biometric Watermarking: Validates user interaction
- Chain-of-Custody Logs: Maintains lifecycle traceability

4. Jurisdictional Compatibility

Verum Omnis outputs are compliant with evidence laws in:

- UAE
- South Africa
- United States
- European Union

Includes legal auto-escalation logic and admissibility verification across jurisdictions.

Southbridge Legal Misconduct Case File

Part IV – WhatsApp Chat (Transcript + Screenshots)

This section contains the WhatsApp conversation with Naeem Abbas. It includes both the exported transcript and corroborating screenshots of the same chat. All exhibits are hashed with SHA-512 for forensic admissibility.

Exhibit 4.2 – WhatsApp Screenshots

Description: Screenshots of WhatsApp chat with Naeem Abbas corroborating transcript.
